Onyinyechi (Onyi) Akalonu

Edmonton, AB | oakalonu@ualberta.ca | linkedin.com/in/onyinyechi-akalonu-9a5927389 | github.com/oakalonu-sudo

Education

University of Alberta Edmonton, AB

Bachelor of Science (Honours) in Computer Science – Artificial Intelligence *Sept. 2025 – June 2029*

Relevant Coursework

Programming Fundamentals, Data Structures and Algorithms, Statistical Methods, Linear Algebra, Calculus, Probability and Statistics

Experience

University of Alberta Ambassador Sept. 2025 – Present

University of Alberta *Edmonton, AB*

- Lead campus tours and engage with prospective students by sharing personal experiences and answering questions about university life
- Volunteer at university events and support prospective students and visitors at the Student Service Centre
- Engage with prospective students through an online platform, providing information about student experiences and answering questions about the University of Alberta

Projects

Student Expense Analyzer | *Python, pandas, Matplotlib, scikit-learn, Flask* 2026

- Developed a Python-based expense analysis tool that allows users to explore monthly and category-based spending through an interactive menu
- Processed and analyzed expense data with pandas to calculate monthly totals and spending by category
- Built a Flask API endpoint to expose processed expense data through HTTP, enabling programmatic access to the application
- Created data visualizations using pandas and Matplotlib, including pie charts, line graphs, and category-based bar charts to identify spending patterns
- Developed and evaluated machine learning models to predict total expenses and category-level spending for the following month

Technical Skills

Languages: Python, C, HTML/CSS **Libraries**: pandas, Matplotlib, scikit-learn **Frameworks**: Flask **Tools**: Git, GitHub, VS Code, Linux **Cloud**: AWS

Certifications

AWS Cloud Practitioner Essentials 2026

Amazon Web Services
